RECENT WORKS

SENIOR SOFTWARE DEVELOPER IN BULBERA
01/19-NOW

Summary:
Senior front-end software developer with experience in UI / UX design, development and maintenance of mobile cross-platform applications, web solutions and management systems.

About me:
During my job I have worked with clients with various sizes - from startups to large organizations. I also have worked on projects for different customers across Europe: UK, Switzerland, Bulgaria. I have some background in back-end development as well.

Experience and responsibilities:
- Creating projects starting from building the UI design mockups based on client specifications, to development of finalized ReactJS / React Native projects.
- Developing the frontend of a social network for volunteering with 20K+ of users.
- Working with different payment providers.
- Bugs fixing and problem-solving on front-end and back-end side.

WORDPRESS / WOOCOMMERCE THEME MODERATOR
01/18-01/19

Summary:
Theme moderator with experience in modification of PHP, JS code, CSS3, HTML5, and DevOps.

About me:
The creation and support of my marketplace by fully modifying a woo-commerce theme was a great opportunity to improve my code writing skills and work with international clients.

Experience and responsibilities:
- Writing CSS
- Modifying PHP code
- Modifying JS code
- Migrating DB from localhost to server
- SSL setup
